What will you use the money for?

Project Cost: £	Amount requested from SACC: £
Please attach costing, Quotations, Receipts	

Grant Process Summary: SACC's task is to reduce CO₂ emissions within Snitterfield. To further this objective any parish resident or organisation may submit proposals to reduce carbon emissions. These proposals are considered at the autumn AGM (or alternatively the monthly meeting by giving 4 weeks' notice). In accordance with SACC's constitution and charitable status, the trustees of SACC determine how grant funds are to be spent, but will take into consideration others views. A summary of the discussions regarding the grant award and decisions will be posted on the SACC website within 4 weeks of each meeting.
